

OUR DREAM JOB - A LAWYER

Hey you! Our names are Ann-sofie and Sofia. We are currently students at Holbæk 10th Grade Center here in Denmark but when we are finished here, we want to study at Stenhus Gymnasium to come closer to our dream job as lawyers.

HOW DO WE GET IN?

Before we can become 2 lawyers we 2 go trough many years of school. first we have our High School witch is going to take us 3 years to finish. And after that we have 5 years on Copenhagen university where we are getting an education in jura - first a bachelor then a candidate.

But after 8 years - 3 in High School and 5 at university we're not done with school, yet. Because we still need one last year as an intern at a law firm we need to go through a lot of courses that year, witch will help us further on as lawyers.

WHAT CAN WE DO WITH THIS EDUCATION?

As an educated law student, can we now choose between becoming a defense attorney or a prosecutor - where it deepens on what you are choosing to be, either have to charge another person for their crime or you have to fight for the person who is being charged by the prosecutor. And now a long journey is waiting, before the case is closing again, because often a case in a court take around 8-18 months to finish.

A DAY AS A LAWYER

As a lawyer you often start your day around 8 am where there's waiting lots of paper work and letters you have to read in advance before getting into the case you eventually are in touch with. Your day mostly ends between 6 p.m. and 9 p. m. through the week lawyer often are at different courses to be smarter on their subject/daily work.
